25X1

1 August 1969

MEMORANDUM FOR: Deputy for Operations, OSA

SUBJECT: Development of Options for OSA [] Program 25X1

1. It has been indicated by OPPB that the FY 71 [] 25X1
programs have been raised as a budget issue by the Bureau of
the Budget. It is probable that the Bureau will press for
substantial reductions in the FY 71 program figures which
total almost \$23M, of which approximately \$11M is included in
OSA's budget.

2. Accordingly, it is requested that you review the
[] Program for FY 71 and attempt to develop one or more 25X1
options which will permit significant reductions in the
programmed figure. It is suggested that one option might be
developed which would reflect slippage on all or part of the
satellite procurement and communications system. Another option
might reflect somewhat smaller reductions or deferments and
would permit continuation of substantially the present schedule
but at a lower cost figure for FY 71.

3. Attached hereto is a summary schedule of the [] 25X1
requirement as reflected in the FY 71-75 Program. Also
attached is one copy of all program material submitted on
[] It is believed that this may be helpful as a work-
sheet in the development of options. It is suggested that a
rough draft of the options be available by 8 August.
